ART OF QUALITY... HOTEL COLLECTION LINEN

OUR BIGGEST MISSION IS TO SATISFY CUSTOMERS.

Providing a wide range of products, AMB Tekstil responds to all your linen needs with its professional and experienced team. Our products are sent to domestic and foreign hotels, especially to hotels operating in Europe.

With its soft texture, AMB Bed Linens decorate the rooms of your hotel with its snow-white color.

ART OF QUALITY... DUVET • PILLOW MATTRESS PROTECTOR

OUR BIGGEST MISSION IS TO SATISFY CUSTOMERS.

Hotel pillows are the most important material that increases the quality of accommodation and sleep in hotel accommodation. Therefore, the pillows used in hotels should be given importance.

You should choose quality textile products in order to provide your guests staying in your hotel room with an inexperienced sleep experience. Showing the same sensitivity you show for bed linens for hotel duvets is a quality that improves sleep quality.

Alez, the number one product of hotels and beauty centers, is one of the textile items that make the beds last longer. Hotel Mattresses, put on the market by AMB Tekstil within Otel Tekstil, prevent the mattress from getting dirty over time. It is one of the important needs for hotels, spa facilities and beauty centers, which host many customers every day and try to maintain international standards in personal hygiene.

ART OF QUALITY... SLIPPERS

OUR BIGGEST MISSION IS TO SATISFY CUSTOMERS.

Today, hotel slippers, which have become the most needed product of all facilities, are produced at AMB Tekstil with the most affordable prices. Slippers, which are produced as disposable in order to provide hygienic environments and manufactured as a single person, are mostly preferred in the Hotel Textile category.

Since they are not designed for long-lasting use, they are not washed and do not cause trouble by throwing them directly after use. Affordable prices of hotel slippers, which provide advantages in bulk purchases, attract the attention of all hotels and other accommodation facilities.

ART OF QUALITY... COLLECTION BATHROBE

OUR BIGGEST MISSION IS TO SATISFY CUSTOMERS.

Bathrobes, which are formed as a result of designing and sewing cotton terry cloth in patterns, are used for drying the person after the bath. Towel bathrobes, manufactured by AMB textile itself, are one of the most sought-after items for both home and hotel textiles. Hotel Bathrobes, which allow customers to stay dry after the shower or by the pool, are classified as products with high durability that can be used for years by washing repeatedly.

In order to create a special concept for hotels, spa facilities and beauty centers, special bathrobe sets that increase brand awareness thanks to special orders are also available in our company. Our Hotel Bathrobes, which are also in high demand in European countries with their dense weaving, pile length and skin-friendly structure, are woven in a way that provides comfort.

ART OF QUALITY... COLLECTION TOWEL

OUR BIGGEST MISSION IS TO SATISFY CUSTOMERS.

Hotel Towels All businesses that take care of human health and providing a hygienic environment use towel products that are resistant to washing. The Hotel Towel, which is housed within the body of AMB Tekstil, is manufactured in accordance with customer criteria, soft and resistant to continuous washing.

Due to their long-lasting use with their fabric quality, they are preferred as home textile products for daily use in bathroom sets.

Our AMB textile hotel towels are divided into certain models according to customer requests and tastes.

- Paint and Print; plain dyeing, yarn dyeing and printing process
- Knitted Towel
- Custom design; Velvet, curly and embroidered towels
- Dobby and jacquard towels

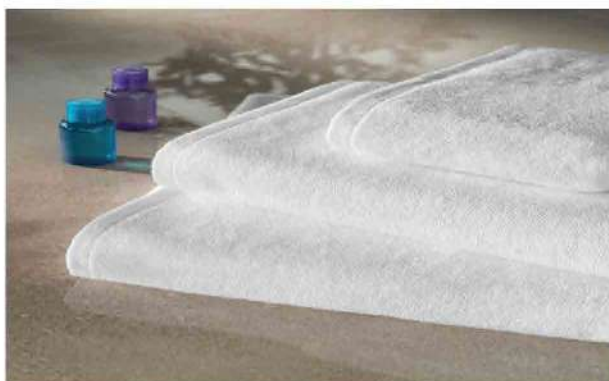

As in all our hotel products, our hotel textile groups, which will add value to reputable businesses with first quality manufacturing and first quality service, reflect years of experience.

ART OF QUALITY... RESTURANT TEXTILE

OUR BIGGEST MISSION IS TO SATISFY CUSTOMERS.

Restaurant textiles play a significant role in creating the right atmosphere and image for your restaurant. With the help of our flexible and cost-efficient rental service, you always have enough clean textiles available in your restaurant, without the expenses caused by material acquisition and storage.

With our versatile restaurant textile collection, you can easily build a look and atmosphere suited to your restaurant. We can also customize our tablecloths and napkins according to your restaurant image – giving you a unique look to differentiate from competitors and take your customer experience to the next level.

Hotel Textile AMB Textile Products The textile industry, which continues to operate in order to produce designs that combine with imagination and the elegant content of cotton, the most precious raw material of nature, continues production with forward-looking solutions. By preserving our traditions and local values and combining them in Bathrobes, Wholesale Towels and Bed Linen groups, which are the pearls of textile, the products that are guests of our homes are the designs that we all love to use.

You can easily find the comfort you are looking for in your duvet cover sets, with the beauties of the products that make your life beautiful, highlighting the healthy and soft textures, and a wide variety of colors and eye-catching designs. You can bring art to your bedroom with duvet covers and pillowcases embroidered with an effective combination of original patterns and shapes.

Hotel Towels, snow-white linens, pleasantly textured sheets, bathrobe sets suitable for every body type, products that reflect your company's emblem and brand can be produced, which are the most needed items in the Hotel Textile sector. Expanding its production line in line with customer demands and requests, AMB Tekstil is one of the most reliable names in the textile industry with its affordable price and honest service policy in hotel groups.

With its liquid-proof properties and nano-technological structure in the production of Quilted Mattresses, it can cause you to have a comfortable sleep in accordance with health standards. Liquid-proofing Micro mattress protectors are dressed in the form of overalls on the mattress, keeping your mattress clean for a long time by protecting it from external factors.

While the technology developed in the globalizing world shows itself with a superior role in the textile field, the production determined with social health awareness is documented with certifications. Otel Tekstil companies, which attach importance to domestic and international exports with their corporate structures, help us to gain a solid position in foreign markets by combining their superior creativity with quality.

The state of cotton, which has completed the quality production stages from its pure raw form, goes through innovative designs to complement the needs of the customers.

Quilts, Pillows, Duvet Covers, Pique, Bed Sheets and Cotton Blankets in the bedroom category; In addition to the elegance, they cause people to spend the night comfortably with the comfort they provide. It is a proven fact by researchers that a comfortable sleep affects daily life positively and has spiritual healing benefits.

Product groups that leave permanent traces with home textile products without consuming resources, like any work done with respect for nature, are on the status surface, which is the most preferred by us.

Textile products that make life and life easier deserve their full place in the market with their rich range and options suitable for every style. It is now very easy to reach products that allow us to shape our living spaces in line with our wishes.
